Dear Sir/Madam

RE: Software Engineering Winter Intern

I am excited to apply for the Winter Internship at Rubrik. As a B.Tech. (Information Technology, Batch: 2020-24) student with a passion for technology, I am eager to contribute my skills and learn from your industry-leading team. My academic background and experience in Python, C, C++, Blockchain and CS Fundamentals such as Data Structures, Operating System, DBMS and OOP make me a strong fit for this opportunity. I've also worked at Python Software Foundation during Google Summer of Code 2022 which makes me familiar to work on industry level software.

Thank you for considering my application.

I look forward to the possibility of contributing to Rubrik's innovative projects and gaining valuable experience during the internship.

Sincerely,

Jatin Jain
